Contractors and Consultants Lists Lake and River Enhancement Program IDNR Division of Fish and Wildlife

These lists of contractors and consultants have been compiled by the staff of the Lake and River Enhancement Section (LARE) of the Indiana Department of Natural Resources' Division of Fish and Wildlife. They are provided only to assist persons and organizations seeking consulting services and products related to lake and river enhancement. They are not all-inclusive lists of all practicing professionals in the respective businesses who have an interest in working in Indiana. These contractors have expressed an interest in providing such services and have contacted the Division to specifically request that their names be made available to potential clients. They have been placed on the lists, if they have demonstrated the ability to perform the types of activities identified. However, placement on the lists does not constitute endorsement of the companies or individuals. The LARE Section, the Division of Fish and Wildlife, the Department of Natural Resources and the State of Indiana do not test for effectiveness, endorse, make any express or implied warranties, or otherwise accept any responsibility for any products or services sold, provided or recommended by the listed entities.

As with all such listings, information can quickly become obsolete, but the LARE staff endeavors to update contact information on a regular basis. This "all-in-one" document replaces the numerous individual listings of contractors formerly provided by LARE for specific types of practices. E-mail addresses and web addresses are provided where available, but these can also quickly change. When in doubt, contact LARE staff or perform a websearch in order to obtain more current information.

Persons or organizations seeking consultant-provided services must determine for themselves whether the listed consultants can accommodate their needs. This should be done by studying the contractors' references, conducting interviews, and asking for detailed explanations of the services that will be provided. The LARE staff provides a series of templates for standard "scopes of services" expected in LARE-funded projects. The LARE staff can also assist by guiding individuals and groups in determining their specific consultant needs and by assessing proposals prepared by contractors to ascertain their technical adequacy, but will not assume responsibility for selecting a consultant or contractor on behalf of any individual or group.

Contractors and consultants with demonstrated specialties are listed for specific services in the following categories. (Click on the links below to go to the individual categorical list.)

- [**1. Aquatic Vegetation Herbicide Treatment**](#)
- [**2. Aquatic Vegetation Management Plan \(AVMP\) and Vegetation Survey**](#)
- [**3. Bioengineering for Bank Stability**](#)
- [**4. Biomonitoring Study of Stream**](#)
- [**5. Design and/or Construction Project**](#)
- [**6. Engineering Feasibility Study**](#)
- [**7. Lake and/or Watershed Diagnostic Study**](#)
- [**8. Lake or Watershed Management Plan**](#)
- [**9. Sediment Removal \(Dredging\) Project**](#)
- [**10. Wetland Plant Suppliers**](#)
